

We have received information about a vehicle speed indicator. The Unipart Dorman DF11 has been shown to be an ideal device for conducting before and after studies of traffic speeds which will provide visible evidence that effective measures are being taken to increase safety on our roads. The DF11 unit not only displays the speed of the vehicle travelling through the village, it also records the data to enable a full understanding of the speed issues at peak times. The device is designed to reinforce the message of fixed plate speed restriction signage - it reminds drivers of their speed, prompting them to alter their behaviour.

Based on information obtained by Cllr West, following an email to the Clerk, Cllr Bell PROPOSED that we purchase one DF11MCB Battery Powered unit (mains charging) at a cost of £2,289.40, plus one B20.20219 spare quick fix mounting plate at £54.00. SECONDED by Cllr Ms Little. ALL IN FAVOUR. Cllrs Bell and Mrs Taylor will install the sign, and other Cllrs agreed to take it in turns to move the sign to various locations around the village. Clerk
